

WILD DOG COMMUNIQUE 11

December 2014

Edition 2014/7

Seasons Greetings

We wish you all a very happy, safe and healthy holiday season and new year

As 2014 comes to a close, we would like to acknowledge and thank all who have contributed to the National Wild Dog Management Plan. It has been a very productive year, with the final development and signing off of the Plan and the commencement of its implementation. WoolProducers Australia are to be congratulated for initiating and driving this process and we very much recognise the hard work and drive of Michele Jackson and Jane Brownbill who organised and gained support from all of the stakeholders and achieved sign-off. In addition, we thank all members of the Project Steering Committee and Writing Group for

giving their time and effort in developing the plan as well as all the other stakeholders who were involved and in many cases, continue to play a crucial role in the Plan's implementation.

We look forward to continuing this work and kicking more goals (and no doubt a few behinds!!) in 2015.

*Duncan Fraser, Chair
on behalf of the Implementation Steering Committee*
